Expense Distribution by Department

Departmental Insights

HR leads at **3,617K**, with Engineering and Operations close behind. The top three departments account for **56%** of total spend. Sales holds the leanest footprint at 2,454K.

- **HR:** 3,617K — highest departmental spend
- **Engineering:** 3,366K — technology investment
- **Operations:** 3,347K — infrastructure & logistics
- **Sales:** 2,454K — leanest cost profile

Where the Money Goes: Expense Categories

Category Highlights

Consulting dominates at 6,030K — nearly one-third of all expenses. Equipment and Marketing follow, together forming a strategic investment cluster. The long tail — Training, Utilities, Office Supplies — represents just **7.8%** of total spend.

- Consulting: **32.8%** of total expenses
- Equipment + Marketing: **39%** combined
- Software: **1,743K** — digital infrastructure
- Office Supplies: **208K** — minimal overhead

Monthly Expense Trajectory

July peaks at **2,119K** — the highest single-month outflow. February dips to **1,053K**, the year's low. H2 averages **1,734K/month** versus H1's **1,333K**, signaling accelerated deployment in the latter half.

Payment Method Distribution

Treasury Intelligence

Cheque and Bank Transfer dominate — **56.4%** of all payments flow through formal banking channels. Cash at **4,389K** (23.8%) warrants governance review. Credit Card usage is the most controlled channel at **3,630K**.

- Cheque: **5,477K** — primary disbursement
- Bank Transfer: **4,909K** — digital-first
- Cash: **4,389K** — audit priority
- Credit Card: **3,630K** — controlled channel

Budget vs. Actual: Departmental Performance

Actual (K) Budget (K)

Every Department Under Budget

All six departments finished below allocation. **19.8% of total budget remains unspent** — a strong governance signal with potential reallocation upside for FY 2026 planning.

- HR: **81.7%** utilization — 3,617K vs 4,425K
- Operations: **80.4%** utilization — 3,347K vs 4,161K
- Engineering: **80.9%** utilization — 3,366K vs 4,162K
- Sales: **77.9%** utilization — most conservative

Approval Rate & Transaction Intelligence

Compliance Posture

An **81.4% approval rate** across **415 transactions** reflects disciplined expense governance. With an average transaction value of **44K**, the 18.6% rejection rate represents meaningful cost avoidance — a direct contributor to the **4,549K budget surplus**.

- **415** transactions processed in FY 2025
- **81.4%** approval rate — strong compliance baseline
- **44K** average transaction value
- Rejections contributed to budget preservation

Executive Action Points

Reallocate the 4,549K Surplus

Deploy unspent budget toward high-ROI initiatives — R&D acceleration, talent acquisition, or digital transformation — before FY 2026 planning closes.

Audit Consulting Spend (6,030K)

At 32.8% of total expenses, consulting warrants a vendor rationalization review. Target 10–15% reduction through in-sourcing or renegotiated contracts.

Strengthen Cash Controls

Cash payments of 4,389K (23.8%) represent a governance risk. Accelerate migration to Bank Transfer and Credit Card channels for full audit traceability.

Investigate H2 Spending Surge

H2 averaged 1,734K/month vs H1's 1,333K — a 30% increase. Validate whether this reflects strategic investment or end-of-year budget acceleration requiring process controls.

FY 2025 • CLOSING SUMMARY

Disciplined Spend. Strategic Surplus.

FY 2025 closes with **18,405K spent** against a **22,954K budget** — a **4,549K surplus** and **81.4% approval rate** across 415 transactions. Every department under budget. Governance intact. Capital positioned for FY 2026.

19.8% Budget Retained

Unspent capital available for strategic redeployment

100% Departments Under Budget

All six functions within allocated limits

81.4% Approval Compliance

Strong governance across 415 transactions
